

Projects

Bridging the gap between innovation and application, Rhizoscope provides the strategic design and fundraising expertise needed to build the circular economy.

We turn systemic complexity into actionable projects that restore our urban and rural ecosystems.

Table of projects from the last five years 2021 – 2026

Project Name	Short Description	Call Identifier	Rhizoscope / Johannes contribution
	Reconstructing Ukraine by restoring contaminated soil and water	➤ HORIZON-CL6-2025-01-CIRCBIO-13	Grant proposal coordination and strategic planning
	Systemic circular economy and bio-based construction products	➤ HORIZON-CL6-2025-01-CIRCBIO-07	Lead for systemic innovation design and proposal development
	Circular blue economy initiatives	➤ HORIZON-MISS-2025-03-OCEAN-05	Scientific lead and grant proposal development
	Flagship project for systemic change to circular construction using AI	➤ Austrian Federal Ministry (BMK)	Proposal coordination, scientific project design
	Circular economy strategies for the tourism sector	➤ HORIZON-CL6-2024-CIRCBIO-01-04	Proposal development support, overarching methodology, circularity
	Planning and employing nature-based solutions in Athens	➤ European Urban Initiative Call 2	Innovative elements, building on Greening Athens guideline
	Addressing climate vulnerability	➤ HORIZON-MISS-2024-CLIMA-01-07	Strategy planning and systemic transformation lead
	Green deal compliant irrigation to increase agriculture resilience to drought	➤ CL6-2024-CLIMATE-01-01	Expert advisor and input lead on nature-based solutions and water resilience
	Recycling local bio-wastes into innovative bio-based fertilisers	➤ HORIZON-JU-CBE-2023-IA-02	Innovation to application support and strategic developer

Table of projects from the last five years 2021 – 2026

Project Name	Short Description	Call Identifier	Rhizoscope / Johannes contribution
 SYMBIO	Symbiosis in bio-based industrial ecosystems via circular supply chains	➤ HORIZON-CL6-2023-CircBio-01-7	Systemic innovation planning and proposal management
 ProCleanLakes	Restoration and protection of European natural lakes	➤ HORIZON-MISS-2023-OCEAN-01-04	Scientific support for demo setup
 NATURE-DEMO	Demonstrating climate-resilient critical infrastructure using NBS	➤ HORIZON-MISS-2023-CLIMA-01-02	Scientific lead for nature-based solutions implementation
 ATRIUM	Sustainable construction using eco-friendly materials	➤ HORIZON-CL6-2023-CircBio-01-8	Circular design expertise, nature-based solutions, proposal development support
 BIOTRANSFORM TRANSITION FROM PETRO- TO CIRCULAR BIO-ECONOMY	Circular bioeconomy transformation through connected biorefineries	➤ HORIZON-CL6-2022-CIRCBIO-01-03	Scientific lead for overall system design and circular business solutions
 CARDIMED	Climate adaptation and resilience demonstration in the Mediterranean	➤ HORIZON-MISS-2022-CLIMA-01-06	Regional strategy coordinator and innovation support
 INSPIRE Innovative Solutions for Plastic Free European Rivers	Innovative solutions for plastic-free European rivers	➤ HORIZON-MISS-2022-OCEAN-01-04	Consultation for circular business solutions and residue valorisation, proposal built on REMEDIES
 REMEDIES RESEARCH AND INNOVATION FOR PLASTIC LITTER MANAGEMENT	Co-creating uptake for plastic litter valorisation and prevention	➤ HORIZON-MISS-2021-OCEAN-03-01	Coordination of proposal, technical development and knowledge transfer
 symbiorem	Circular bioremediation systems for pollution control	➤ HORIZON-CL6-2021-ZEROPOLLUTION-01-10	Proposal lead, overseeing circular solution development
 NBSOIL	Nature-based solutions for soil management	➤ HORIZON-MISS-2021-SOIL-02	Expert consultant on regenerative system design
